The 38 Counties to be heard from gave, in 1839, a V. B. majority of 3905.

Nine Whig members of Congress are elected. the Election being by general ticket, a gain of six menders, 3 in the present Congress having become Van Buten men. -

The legislature is also ours, quite beyond a doubt. The Augusta Chronicle says the Whigs have gained 31 nightbers of the Legislature and lost but 4. A. U. S. Senator is to be chosen by this Legislature, to succeed Wilson Lumpkin.

The Globe, the Government organ, given up the State; thus, after hearing from only 39 counties : :

"Fifty-four counties remain to be heard from, they can evercome the majority which the federai ticket has already obtained.''

The national song is prophetic: "VANT VANTOS A-USED UP MAN."

The # lie wing letter of the Hon. L-vi. Woodbury, a member of Mr. Van Buren's eshinet, is copied from the Argus Revived. This letter contains matter whichy of the deep considerstion of the people of this State and of this Union. The people have been told repeatedly in the public documents and newspapers devoted to Van Buren, that the general government was doing all in its power to argure the rights of Maine. Ahile the Why press as constantly insisted that Van Buren's administration had been false to the interests of Maine. The following letter proves that the Whigs were right, and that in private the leaders of the Van Busen party held the same opinion and expressed it to Mr. Woodbury. In honest eninion they agreed with the Whige, but this opinion they suncealed from the | 000 a year is of itself a fortune, especially with people, and expressed another one in order to deceive them ? Est the people remember this ! Mr. Woodbury's letter disabages another point

in the history of the present administration well worthy the close attention of every republican. which is this: that the public business has sufbred in consequence of the President and the left in their hands with the most reakless disreheads of the departments at Washington ng. gard to remo...y, prudones or safety, glecting the business of the people and making parallel even in this most wantonly produced adthe party at the time, but here we have the at the time ! . In in this State, and so in every State, inhere public afficers spend their time in electioneering, the public business will be neglected and the public interests suffer.

.. The policy of The onice polders of the state and nation in this dity, seems to be, if we can understand their movements, to devote all their time between this and the second of Novemberin drilling and controlling the people in order to make sure of their places. The people in the country may expect to be swarmed with these dependants, who are thinking only of their sale aries and their bread. But the people in this free country, have determined that the ruinous measures and anti-democratic destrines and practices of the present administration shall cease, and a better state of public mora's and others conduct be supported. The gross of Levi Woodbury cannot prevent this. The last frather will be applied. The people will triumph and freedom be secured. Now read the letter, and say if such condemnation will not be

The money has frequently been placed in the hands of unofficial and tresponsible agents such as Captains and Lieutenants in the ermy Capt Morrison has had continually in his hands som quarter to quarter, from the last quarter of '37, to the 3d quarter of 39-the average sum of (0)0,005\$ 6±000,001\$ most

And the way most of them settle their accounts with Government, is-by charging the transfer of funds into the hands of other agents as tresponsible as themselves. The interest on the \$750,000- \$45, the advantage of exchange for depresented funds. I do not find in the register or "blue Book," that any of these officers are disharating officers. They do not come in by wyular ap poshtment of the President and the Semalet would seem that they are selected by the Executive or his aubordinates at mere discrebun, and the public inchey is placed into sud-

Now let me ask why the people's money is thus wasted? These are some of your Sub . treasurers, I suppose? and no wonder that your treasury, is bankrupt . . Thek are not your fight. ing officers the heroes of the glorious Plorida er. They never, perhaps, saw an epemy mtheir lives. I now come to a case almost too flagrant for belief. We had driven these sons of the forest these inneritors of the anil from post toxpillar, untilkthey found, no resting place no asylum from the copacity of the white man. - If they resisted, it was savage atmosty-and barbarism. If they yielded, it was oppression and slavery, Of their lands they were robbed every where: Those forests and streams, where their fathers air they breathed, were, from time to time, wrested from them, until at last, some of them were permitted to settle down in communities of their own, under the protection of the United the expectation of ample reward of industry. Under the guaranty of the United Bulen, they had made progress in civilization and improvements in the arts of a cial life, They had agriculture, schools and the christian religion. But the States where they resided wanted their lands, and sanctioned by the President, they commenced a process of legisls. tion over them of the most vindictive and tyrannical character. The Government offered them so asylum beyond the Mississippi, but they refused to go and demanded the protection pledged by the faith of treaties Ful go they must for we wanted their lands, and a treaty was effected with a minority of them represented by the Ridges and Boudinot, in which they surrender up their homes and the tombs of their fathers and slipulate for the imigration of the whole nation.
